

Important Notice to International Registration Plan Carriers

This notice is to inform carriers that as of August 17, 2020, all Ontario Ministry of Transportation International Registration Plan Offices will start issuing Cab Cards in both, electronic and paper formats. Motor carriers can continue to choose to carry this documentation either in electronic or paper format in their vehicles.

The use of electronic images of International Registration Plan Cab Cards have been accepted by all jurisdictions in the United States and Canada. Documentation shown in an electronic image must be accessible by computer, tablet, smart phone, or other electronic device.

If you choose to maintain an electronic format of this documentation, it is strongly recommended that the document is saved as a file, such as Portable Document Format (PDF), and saved to an electronic device for each vehicle. This approach enables you to have access to the documentation at any time, even when access to mobile and/or wireless service may be interrupted.

We also recommend that you continue to carry a paper copy in each vehicle to be available in areas where access to mobile and/or wireless service may be interrupted.

Regardless of the format --either electronic or paper--, the document must be accurate, valid, legible, and be accessible on demand by request of law enforcement and/or the International Registration Plan Registrar. If you are unable to provide proof of credentials, then you may be charged by law enforcement, and court action may be taken.

If you have any questions regarding the International Registration Plan (IRP) and acceptance of electronic International Registration Plan Cab Cards, please contact the International Registration Plan Program Office at (416) 235-3923 or toll free at 1-866-587-6770.
