MEMORANDUM TO: DriveON Stakeholders

FROM: Jennifer Elliott, Director
Ministry of Transportation

DATE: January 22, 2024

SUBJECT: **Reminder Regarding
Ongoing DriveON Information Sessions**

In July 2022, the Ministry of Transportation (MTO) commenced Phase 1 of the new DriveON program, combining the heavy-duty diesel vehicle emissions testing program and the MTO's Motor Vehicle Inspection Station (MVIS) Program into a single digital inspection program.

As the MTO moves closer to rolling out Phase 2 of the DriveON program for heavy-duty and light-duty passenger vehicle safety inspections, the ministry and Parsons Inc, have been hosting information sessions across the province of Ontario. The sessions consist of a presentation by the MTO, as well as Parsons Inc. to introduce the new DriveON program, show the program equipment and software and to conduct a question and answer period. Though the virtual sessions have ended, in-person sessions will continue until February 15, 2024.

Clients who are considering enrolling in the DriveON program are encouraged to attend one of these information sessions. Information regarding locations, dates and registration for sessions can be found on the online DriveON Portal at www.driveonportal.com. If you are unable to attend an in-person session, you can access the online portal to obtain copies of presentations from past sessions, frequently asked questions, and pre-enrolment guides.

If you have any questions about the information sessions, or the new DriveON program, please contact the Vehicle Inspection Centre Assistance line toll free at 1-833-420-2110, or email VIC@driveonportal.com.

Sincerely,

A handwritten signature in cursive script that reads "Jennifer Elliott".
