Memorandum To: Regional Directors
Managers, Operations
Heads, Operational Services

Subject: **Reduced Load Periods and Restrictions
on Overloads for 2020**

Attached please find the Reduced Load Limit designation and the Schedules for 2020. The designation has been signed under the authority delegated by the Minister of Transportation, in accordance with Section 122(5) of the Highway Traffic Act.

As in the past, the actual date of reduced load limit enforcement will depend on weather conditions. The Head, Operational Services will determine the date(s) of reduced load limit enforcement and provide public notification of the date on which the reduced load limit enforcement begins and ends, for each Region.

At the discretion of the Regional Director, "Reduced Load Notices" referring to the applicable reduced periods (Schedules 1, 2 and 3), may be published in advance of the effective date(s), in a weekly and/or daily newspaper within the Region / Area. At that same time, the Customer Information Services Office (MTO INFO) must be notified of the effective date(s).

Also included, as part of this designation, is the reduction in allowable weights authorized by the Overweight/Oversize permit issuing office for the movement of heavy vehicle loads, objects or structures on all provincial highways.

Information regarding seasonal loads can be found at www.ontario.ca/511, under Truck & Bus Info. We encourage all to support the Ontario511 Traveller Information website as the preferred information channel along with twitter feeds @ONTransport and @TransportON.

Should you have any questions, please contact Jonathan Boone at (416) 722-8197.
